

Personality Typing

There are many theories on personality types and how they relate to career choices and career fields. If you aren't sure which direction to take your career, taking a personality test might help guide you. It is a good idea to be familiar with a few of the most common personality type measures just in case it is referenced during an interview. Here are a few popular ones and a link to take a free version of each one.

Myers-Briggs

<https://www.16personalities.com/free-personality-test>

The Myers-Briggs Type Indicator® (MBTI®) personality inventory is based on Carl Jung's theory of psychological types and consists of sixteen different types, based on four categories, where there are two types within each of the 4 categories.

Enneagram

<https://www.truity.com/test/enneagram-personality-test>

This personality test is based on the Enneagram personality theory, which describes personality in terms of nine types, each driven by their own set of core emotions, fears, and beliefs.

Holland Vocational Type

<https://openpsychometrics.org/tests/RIASEC/>

Holland's theory states that most people fall into one of six categories of personality, and when someone works in an environment that matches their personality type, they are more likely to flourish. This is a free version that is similar to the Holland Vocational Type test.

Clifton Strengths (formerly Clifton StrengthFinders)

<https://high5test.com/strengthsfinder-free/>

This assessment discovers your unique rank order of thirty-four different strength themes. It helps you discover your natural talents and understand how to work better with others. This is a free version that is similar to Clifton Strengths.
